"...In a word: Great!..."—Neil Shapiro, Nibble Magazine

## First the Black Plague, now this.

Drax, the evil sorcerer, is holding Princess Mariana captive in his dark and dismal dungeon. And he'll only release her to the warrior who can defeat his barbarian guards in deadly sword combat.

## Somebody gets the girl.

While Drax looks on you'll fight one-on-one against a string of his ruthless slaves—clashing swords in the forgotten dungeon, Drax's throne room, the molten lava bed and in the dark, enchanted forest.

As Gorth the hero-warrior, you'll need to sharpen your sword skills—using powerful combination moves to cut down your opponents. If you fail, the court gremlin will throw you on the heap with the rest of the warriors. And then what will become of lovely Princess Mariana...?

- ▶ Clash with brawny barbarians in head-to-head sword combat. Only the best will take on Drax himself.
- ▶ Defeat your foes in the throne room, dungeon, lava bed or dark forest.
- ▶ Collect "trophies" using the hair-raising "web of death" chop.
- ▶ Cinematic graphics and metal-on-metal sound effects.
- ▶ Two-player practice option. Joystick controls.

Out of nowhere comes a sword-wielding brute. Aim for the kill.

Heads are going to roll. Just make sure yours doesn't.

Losing is a drag. And the gremlin doesn't mind doing the dirty work.

The heat is on. Too late for cold feet.

Please refer to the instruction manual for the introduction, loading instructions, and joystick controls. Read this card for battle instructions, keyboard, and additional joystick controls on your Apple computer.

### BATTLE INSTRUCTIONS

#### Key commands:

Press **P** to select one or two player mode.

Press **RETURN** to start the game.

Press **CTRL-R** at any point to go back to the main menu.

Press **ESC** to pause and resume the game.

Press **Q** to quit the game.

### GAME #1

In this game, you will be fighting your battles in the lava pits and the enchanted forest.

#### One Player Mode:

If you select one player mode and are using the joystick, follow the joystick controls shown in the manual. If you select one player mode and do not have a joystick, follow the keyboard directions below.

In this mode, each opponent you defeat will be replaced by a stronger, more cunning warrior.

## Two Player Mode:

If you select the two player mode, the player starting on the right side of the screen will use the keyboard controls, and the player on the left side will use the joystick controls.

In this mode, each fight is timed. If both players survive the time limit, each will regain strength and a new fight will begin.
