Ram Chips		
Ram Chips are available at the rate of \$48.00		
per 256K (8 Chips) So you can order an AE Card		
With Zero Ram and allow the addition of the		
amount you require based on \$48.00 per 256K.		
This represents a significant saving over		
Applied Engineering's prices for Cards INCLUDING Ram.		

BBS Listing

Founded in 1984, Nemo BBS was run by Graeme & Gloria Platt on Apple II hardware using GBB5/Pro. Later, they added Treasure Island BBS (GBBS) to the stable. All their BBSes had active Apple II files areas.† Eventually they launched "1990 MultiLine BBS" which ran on an IBM clone, but still catered to local Apple II users.

†Another of their boards was pro-nemo BBS (ProLine Apple II UNIX global network)
